

Help Preserve the Historic Fieldale Iron Bridge!

84%
of Goal Met!

Located in southern Virginia, the Fieldale Iron Bridge has been an important part of the community of Fieldale since its construction in 1931. Upon learning that it would be destroyed to make way for a new more modern bridge the Dan River Basin Association, their Martinsville-Henry County Rivers & Trails Group, and the Fieldale Heritage Festival have banded together to work cooperatively and reuse parts of the bridge as trail art along Phase III of the Fieldale Trail in Fieldale Park.

Financial support from the community and all who enjoy history is needed to fund the welding, lead abatement, repainting, and mounting of the trusses. You can help preserve this important piece of local history by purchasing a plaque to be mounted at the bridge in honor or memory of a loved one. See the order form on reverse.

All donations both large and small are accepted. They are tax-deductible and all proceeds will be used for the costs associated with restoring the trusses. With your support, this section of the Fieldale Iron Bridge will be preserved so it can be remembered and for future generations to enjoy.

Thank you to our sponsors!

Mr. Rayford Smith, Henry County PSA, Mr. Joey Arrington, Northpoint Trading, Hall's Mechanical

Fieldale Iron Bridge Preservation Project

Step 1: Select a giving level

___ \$25 Friend (Friends will be recognized at www.DanRiver.org; skip to step 4)

___ \$50 Donor (Donors will be recognized at www.DanRiver.org; skip to step 4)
