**“River Coloring Book”**

# Dan River Basin Association

**We all love our beautiful rivers.**

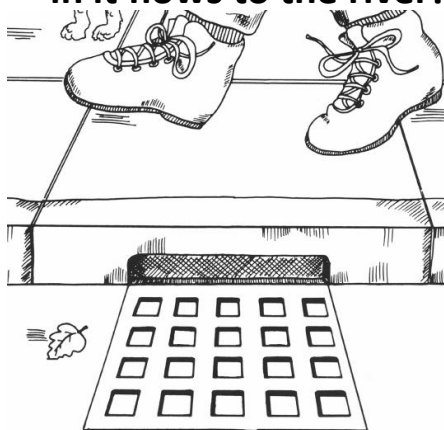

**What can we do to keep the Dan River healthy and clean?**

**Put trash in trash cans and recycle when possible!**

**Only allow rain in the drain—everything that goes in it flows to the river!**

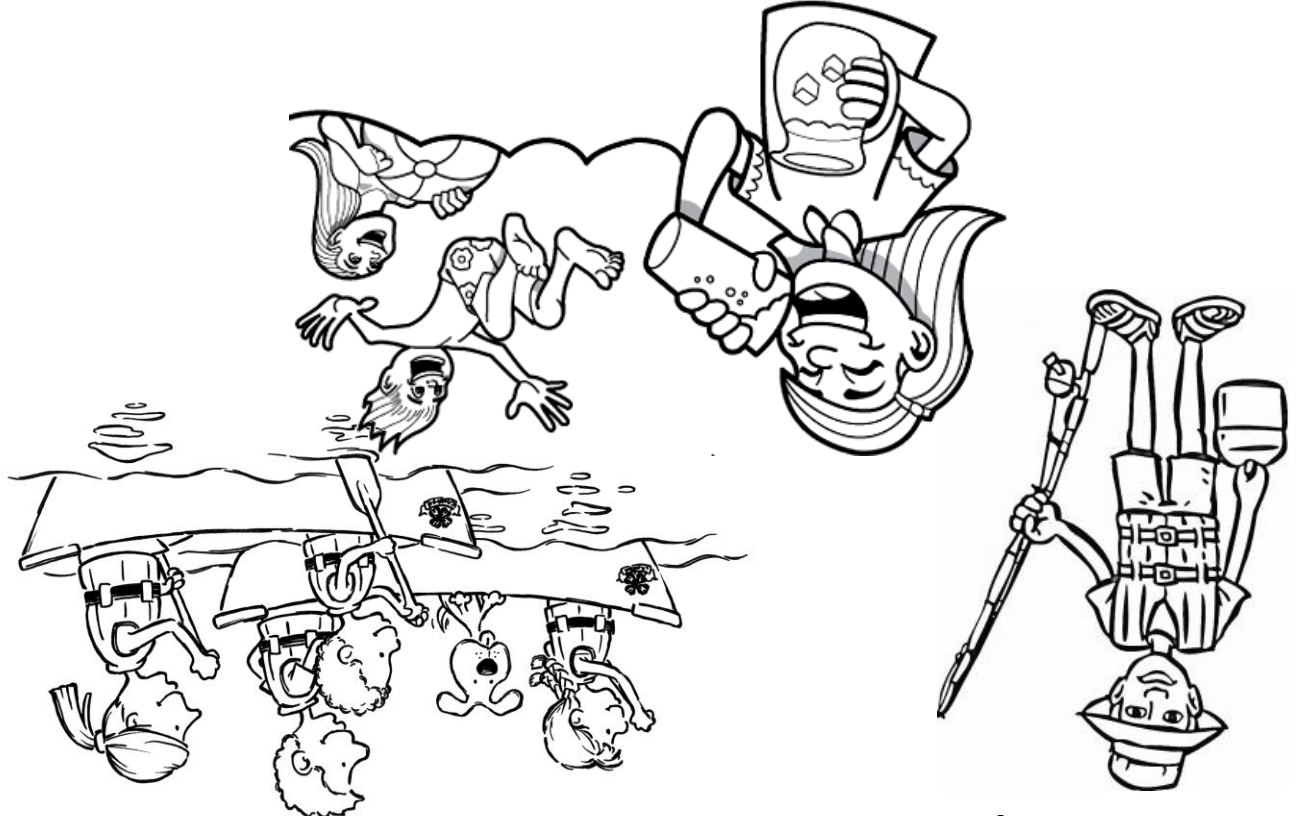

**Scoop, bag and throw away your pet's poop!**

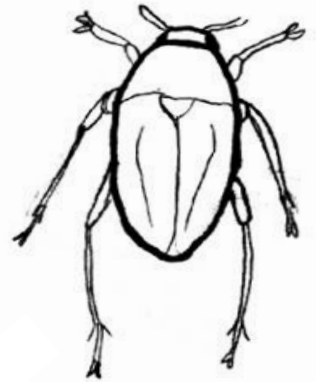

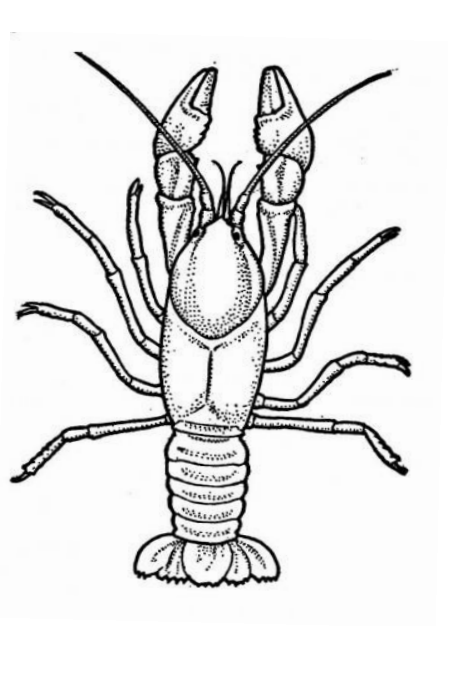

**The Kingfisher and the River Otter  
eat catfish and aquatic insects.**

**We play, fish, canoe and even get our drinking water from our rivers.  
Did you ever wonder what lives in the river?**

**Aquatic insects (bugs) live in the river.**

**Catfish eat the aquatic insects.**
